Read the New "Drug Facts" Label Carefully

You've probably noticed new, simpler labels on most nonprescription medicines that can help you use your medicines wisely. The label identifies the medicine's active ingredients and uses; lists warnings and directions; and other important information.

(NAME OF ORGANIZATION) reminds you to Be MedWise. For more information, visit www.bemedwise.org.

<i>Drug Facts</i>	
<i>Active ingredient (in each tablet)</i> Chlorpheniramine maleate 2 mg	<i>Purpose</i> Antihistamine
<i>Uses</i> temporarily relieves these symptoms due to hay fever or other upper respiratory allergies: ■ sneezing ■ runny nose ■ itchy, watery eyes ■ itchy throat	
<i>Warnings</i> Ask a doctor before use if you have ■ glaucoma ■ a breathing problem such as emphysema or chronic bronchitis ■ trouble urinating due to an enlarged prostate gland	
Ask a doctor or pharmacist before use if you are taking tranquilizers or sedatives	
<i>When using this product</i> ■ you may get drowsy ■ avoid alcoholic drinks ■ alcohol, sedatives, and tranquilizers may increase drowsiness ■ be careful when driving a motor vehicle or operating machinery ■ excitability may occur, especially in children	
If pregnant or breast-feeding, ask a health professional before use. Keep out of reach of children. In case of overdose, get medical help or contact a Poison Control Center right away.
